

Presentation Award 1 Feb.17 13:20-14:50 Lecture Room1

No.	Order in Session	Program No.	Name · Affiliation Abstract Title
MO1	1	1043	Tsukiyama Yoshiro (Kobe University Graduate School of Medicine) The impact of dissection form assessed by optical frequency domain imaging after balloon angioplasty
MO2	2	1055	Nakagawa Masayuki (Kita-Harima Medical Center, Cardiology, Hyogo, Japan) Differential Arterial Healing between BMS and DES Evaluated by OCT: A Case Report
MO3	3	1064	Kakizaki Shunsuke (Osaka Saiseikai Nakatsu Hospital, Osaka, Japan) Intravascular ultrasound predictor of 1year restenosis after balloon angioplasty for SFA lesions.
MO4	4	1026	Takahashi Yu (Himeji Caridovascular Center) Distal Embolization after EVT for High Intensity Plaque by Non-contrast T1W MRI of EIA CTO Lesion
MO5	5	1081	Aoyama Hidekazu (Nagoya Tokushukai General Hospital, Aichi, Japan) A case report: "HIP" can be useful at the determination of EVT strategy for PAD
MO6	6	1098	Hayakawa Naoki (Asahi General Hospital, Department of Cardiology, Chiba, Japan) The novel method of EVT for CKD patient using DSA program with diluted contrast medium
MO7	7	1079	Mine Kaori (Sakakibara Heart Institute, Tokyo, Japan) Evaluation of Occluded Lesion in Peripheral Artery Using Dual Energy CT
MO8	8	1028	Ohmine Takahiro (Division of Vascular Surgery, Department of Surgery, Hiroshima Redcross Hospital and Atomic-bomb Survivors Hospital) Combined CFA endarterectomy and iliac stenting for the failed prior crossover FF bypass surgery.

Presentation Award 2 Feb.17 13:20-14:50 Lecture Room2

No.	Order in Session	Program No.	Name · Affiliation Abstract Title
MO9	1	1104	Takeuchi Wataru (Toyohashi Heart Center, Aichi, Japan) The outcomes of endovascular treatment in stenocclusive lesions of the infra-renal abdominal aorta.
MO11	2	1066	Otsuka Hiroaki (Department of Cardiovascular Medicine, Okayama University, Okayama, Japan) Efficacy and Safety of Large Self-Expandable Nitinol Stent for Infra-Renal Abdominal Aortic Stenosis

MO12	3	1008	Kambayashi Daisuke (Fukuchiyama City Hospital , Cardiovascular department , Kyoto, Japan) A Case of EVT for massive thrombus of S-G and stenotic lesion of left leg after EVAR.
MO13	4	1047	Miura Hideo (Nagano Chuou Hospital) Successfully balloon crossing by BAD FORM Technique for left CIA CTO Lesion with severe calcification
MO14	5	1057	Miyawaki Daisuke (Nanntan General Hospital Cardiovascular Medicine, Kyoto, Japan) Successful limb salvage from CLI due to AIOD with severe calcification.
MO15	6	1102	Kadoya Yoshito (Department of Cardiovascular Medicine, Graduate School of Medical Science, Kyoto Prefectural University of Medicine) Successful Endovascular Treatment of Infrarenal Aortic Stenosis due to Antiphospholipid Syndrome
MO16	7	1001	Higashitani Nobuya (Department of Cardiovascular Medicine) A case of emergent EVT for acute mesenteric ischemia

Presentation Award 3 Feb.17 14:50-16:20 Lecture Room1

No.	Order in Session	Program No.	Name · Affiliation Abstract Title
MO17	1	3002	Cassandra M. Hidajat (Royal Melbourne Hospital, Victoria, Australia) CTA alone is inadequate for the evaluation of great saphenous vein conduits for infrainguinal bypass
MO18	2	1049	Hayashi Masanori (Department of Surgery, Keio University school of Medicine, Tokyo, Japan) A huge tumor thrombus arrested by inferior vena cava filter.
MO19	3	1009	Kikuchi Yasuhiro (Department of Cardiology Tokyo Womens Medical University Tokyo Japan) Acute Phase Pulmonary Thrombus Reduction between Direct Oral Anticoagulant and Warfarin Treatment
MO20	4	1105	Yuji Murakami (Cardiovascular Medicine Center,Fukuoka Sanno Hospital) Endovascular stenting for chronic post-thrombotic symptomatic iliac vein occlusion
MO21	5	1089	Maruyama Takashi (Takatsu General Hospital Department of Cardiovascular) A Case of Protection Filter With Severe Organized Thrombus Stucked In The Femoral Artery
MO22	6	1030	Murata Naotaka (Tokyo Medical University, Department of Cardiology, Tokyo, Japan) The Utility of Oscillometric Recording Brachial Pressure Form Index for Peripheral Artery Disease

MO23	7	1108	Suemitsu Kotaro (Department of Internal Medicine, Division of Kidney and Dialysis, Kansai Rosai Hospital, Amagasaki, Japan) The Impact of Lesion Morphology on Durability after Angioplasty for Arteriovenous Fistulae
MO24	8	1105	Odajima Susumu (Hyogo Prefectural Awaji Medical Center, Hyogo Japan) Skin Ulcer due to Hemodialysis Access-induced Distal Ischemia in Patient with Giant Cell Arteritis.

Presentation Award 4 Feb.17 14:50-16:20 Lecture Room2

No.	Order in Session	Program No.	Name · Affiliation Abstract Title
MO25	1	1039	Kikuchi Jun (Gifu Heart Center, Gifu, Japan) Intravascular ultrasound and histopathological findings of effectiveness of flossing with “Crosser”
MO26	2	1016	Tokuda Takahiro (Saiseikai Yokohama City Eastern hospital, Yokohama, Japan) Predictors of non-Wound Healing in high risk Patient classified with Wifi classification
MO27	3	1052	Shimada Takenobu (Tokeidai Memorial Hospital, Cardiovascular Center, Sapporo, Japan) Thrombectomy Using Biopsy Forceps in Acute Limb Ischemia Patients
MO28	4	1034	Yamanaka Toshiaki (Department of Cardiovascular Medicine, Tsuyama Chuo Hospital, Tsuyama, Japan) Hybrid revascularization procedures reduced limb amputation in patients with acute limb ischemia.
MO29	5	1060	Mori Shinsuke (Saiseikai Yokohama City Eastern Hospital, Yokohama, Japan) Clinical outcome of “full metal jacket” treatment for femoropopliteal lesions
MO30	6	1071	Taguchi Tetsuya (Fukaya Red Cross Hospital, Saitama, Japan) A case of severe calcified left subclavian artery CTO treated using sheath rendezvous method.
MO31	7	1074	Mochizuki Hiroki (St.luke's International Hospital Cardiovascular Center, Tokyo, Japan) Stenting of superior mesenteric artery stenosis covered by stent graft of thoracic aortic aneurysm
MO32	8	1042	Yoshioka Ryo (The Sakakibara Heart Institute of Okayama, Okayama, Japan) Complete Exclusion by using Three Covered Stents of Recurrent Hepatic Artery Aneurysm

Presentation Award 5 Feb.17 16:50-18:20 Lecture Room1

No.	Order in Session	Program No.	Name · Affiliation Abstract Title
MO33	1	1050	Yoshioka Ryota (Department of Cardiovascular Medicine, Nantan General Hospital, Kyoto, Japan) Successful bailout procedure from acute popliteal artery occlusion associated with EXOSEAL®;
MO34	2	1029	Tachiiri Michiya (Department of cardiology, Japanese Red Cross Otsu Hospital, Shiga, Japan) A Case of Subacute limb Ischemia Associated with Hemostatic Device (Angio-Seal)
MO35	3	1024	Nakabayashi Keisuke (Kasukabe Chuo General Hospital Heart Center, Saitama, Japan) Combination Hemostasis for a Pseudoaneurysm: Metacross RX and Thrombin Injection
MO36	4	1054	Hiranuma Noritoshi (Ako City Hospital) A case of Saphenous Vein Graft Perforation
MO37	5	1075	Suzuki Takahide (JA Hokkaido Asahikawa Kosei General Hospital, Hokkaido, Japan) Open the closed box in order to bailout a failure of stent deployment system
MO38	6	1058	Ishihara Ryuma (Kawakita General Hospital) A case of distal embolization due to huge thrombus that couldn't be recovered Parachute wire
MO39	7	1073	Tobita Kazuki (Department of Cardiology, Shonan Kamakura General Hospital) A Case of Delayed Pseudo-aneurysm after Stent Thrombosis of Superficial Femoral Artery Stenting
MO40	8	1087	Yoshioka Shingo (Nagoya Tokushukai General Hospital Department of Cardiology, Aichi, Japan) A trouble case of stenting across to another stent strut in EVT and bailout experiments.

Presentation Award 6 Feb.18 13:20-14:50 Lecture Room1

No.	Order in Session	Program No.	Name · Affiliation Abstract Title
MO41	1	1065	Terashita Daisuke (Kobe University Graduate School of Medicine, Kobe, Japan) Vascular response to paclitaxel-eluting self-expanding stent in superficial femoral artery lesions
MO42	2	1017	Miki Kojiro (Division of Cardiovascular Medicine and Coronary Heart Disease, Hyogo College of Medicine, Hyogo, Japan) Impact of Stent Diameter on Stent Patency After Stent Implantation in the Superficial Femoral Artery

MO43	3	1068	Shirai Shigemitsu (Saiseikai Yokohama City Eastern Hospital, Kanagawa, Japan) Comparison of IVUS and Restenosis after Stenting for de novo SFA classified with PACCS grade 4
MO44	4	1012	Yamaguchi Tetsuo (Japanese Red Cross Musashino Hospital, Tokyo, Japan) Bail-Out Stenting for the Dissection Made by Sub-intimal Thrombectomy in Acute Limb Ischemia
MO45	5	1063	Shibata Tsuyoshi (Department of Cardiovascular Surgery, Hakodate Municipal Hospital, Hokkaido, Japan) Artificial Blood Vessel Bypass Compared with Endovascular Therapy for TASC D Lesions
MO46	6	1061	Kubota Hiroshi (Department of Cardiovascular Medicine, Nantan General Hospital, Kyoto, Japan) Successful endovascular treatment with a limited puncture site due to severe joint contracture
MO47	7	1070	Tsubakimoto Yoshinori (Department of Cardiology, Japanese Red Cross Kyoto Daini Hospital, Kyoto, Japan) Clinical Efficacy of Pedal Artery Angioplasty stratified by severity of Pedal Artery Disease
MO48	8	1097	Shoji Keisuke (Japanese Red Cross Kyoto Daiichi Hospital Department of Cardiology, Kyoto, Japan) Relationship between tissue oxygen saturation and final angiographic result after EVT for CLI

Presentation Award 7 Feb.18 13:20-14:50 Lecture Room2

No.	Order in Session	Program No.	Name · Affiliation Abstract Title
MO49	1	1090	Sugihara Makoto (Fukuoka University Hospital, Department of Cardiology) Evaluation Method of The Endpoint after Endovascular Treatment for Critical Limb Ischemia.
MO50	2	1004	Kaetsu Yasuhiro (Kakogawa Central City Hospital, Kakogawa, Japan) Predictors of one year mortality after EVT for CLI with below-the knee disease
MO51	3	1094	Takei Tatsuro (Cardiovascular Center, Miyazaki Medical Association Hospital, Miyazaki, Japan) Does the Routine Screening Coronary Angiography Examination Improve the Clinical Prognosis of Patients with Critical Limbs Ischemia?
MO52	4	1025	Arai Kiyohito (Department of Cardiology, Saiseikai Kurihashi Hospital) CLI with BTK Lesions, Rutherford Class 6 and Incomplete Revascularization: What to Do Next?
MO53	5	1006	Yukimitsu Nozomu (Tokyo Rosai Hospital, Japan) The impact of Sleep Apnea Syndrome on wound heal in patients with Critical Limb Ischemia

MO54	6		Michitaka Sugeno (Cardiovascular Medicine Center, Fukuoka Sanno Hospital) The case which could cross a wire into meander peripheral artery and occlusion of a bypass vessel by using steering micro catheter of Sumius-made
MO55	7	1101	Ogata Kenji (Miyazaki Medical Association Hospital) The safety and efficacy of the distal puncture technique for patients with critical limb ischemia
MO56	8	1051	Tsujimoto Satoshi (Department of Medicine II, Kansai Medical University) Successful Case of Below-the-knee Angioplasty Using PIERCE Technique

Presentation Award 8 Feb.18 14:50-16:20 Lecture Room 1

No.	Order in Session	Program No.	Name · Affiliation Abstract Title
MO57	1	1062	Shibata Tsuyoshi (Department of Cardiovascular Surgery, Hakodate Municipal Hospital, Hokkaido, Japan) Hakodate Abdominal Aortic Aneurysm Study: Screening with Echocardiography
MO58	2	1040	Higashino Naoko (kansai rosai hospital cardiovascular center) Successful Endovascular Repair for a concomitant Aortic Occlusion with an Abdominal Aortic Aneurysm
MO59	3	1013	Nagatomi Satoru (Sumitomo Hospital, Department of Radiology, Osaka, Japan) A Successful Case of Endovascular Aortic Repair for Abdominal Aortic Aneurysm with Horseshoe Kidney
MO60	4	1110	Nanto Kiyonori (Kansai Rosai Hospital, Cardiovascular Center) Successful EVT for SMA Occlusion after EVAR by Using Trans-collateral Approach from Celiac Artery
MO61	5	3006	Veera Suwanruangsri (Maharat Nakhon Ratchasima Hospital) Endovascular aortic aneurysm repair in patients with narrow aortic bifurcation
MO62	6	1011	Higami Hirooki (Department of cardiovascular, Otsu Red Cross Hospital) Double Effectiveness of Thoracic Endovascular Aortic Repair (TEVAR) for Refractory Heart Failure
MO63	7	3008	Giuseppe Petrilli (Division of Cardiac Surgery University of Verona Italy) Aortic arch aneurysm treatment with endovascular double-branched prosthesis. Case report.
MO64	8	1044	Hata Yosuke (Kansai Rosai Hospital Cardiovascular Center, Hyogo, Japan) Endovascular Entry Closure of Aortic Dissection with Amplatzer Vascular Plug 2

Presentation Award 9 Feb.18 14:50-16:20 Lecture Room2

No.	Order in Session	Program No.	Name · Affiliation Abstract Title
MO65	1	1059	Horie Kazunori (Sendai Kousei Hospital, Cardiovascular Center, Miyagi, Japan) The Long-term Outcomes of EVT using Excimer Laser Atherectomy for atherosclerotic lesions in CFA
MO66	2	1078	Imai Ryuichiro (Department of cardiology, Chikamori hospital, Kochi, Japan) A case of surgical retrieval of LifeStent^R that could only be deployed partially
MO67	3	1109	Inoue Takumi (Hyogo Prefectural Awaji Medical Center, Sumoto, Japan) Critical Limb Ischemia with Systemic Sclerosis Treated by EVT and Lumbar Sympathetic Nerve Blockade
MO68	4	1014	Karashima Eiji (Shimonoseki City Hospital Cardiovascular Medicine, Yamaguchi, Japan) Knuckled shaped 0.035 wire protrusion during the procedure of the ISR-CTO
MO69	5	1018	Ozaki Shunsuke (Departement of Cardiovascular Medicine, Itabashi Chuo Medical Center, Tokyo, Japan) A case of Critical Limb Ischemia after Femoral-Femoral and Femoral-Popliteal Bypass Surgery.
MO70	6	1023	Sato Tomoyasu (Radiology,Tsuchiya general hospital) A case of FP bypass obstruction successfully recanalized native SFA using Outback system.
MO71	7	1041	Kimura Masayoshi (Japanese Red Cross Kyoto Daiichi Hospital, Department of Cardiology, Kyoto, Japan) Effectiveness of OTW balloon catheter for BTK-CTO EVT - Single center experience and bench testing -
MO72	8	1035	Miyai Nobuyuki (Koseikai Takeda Hospital, Department of Cardiology, Kyoto, japan) The Stuck Crosser Catheter at BK Lesion

Presentation Award 10 Feb.18 16:50-18:20 Lecture Room1

No.	Order in Session	Program No.	Name · Affiliation Abstract Title
MO73	1	1095	Nakamura Masayuki (Nagoya Tokusyukai General Hospital Department of Cardiology, Nagoya, Japan) Three Cases of CoreValve Dislocation During Transcatheter Aortic Valve Implantation.
MO74	2	1086	Tanaka Akimitsu (Nagoya Tokushukai General Hospital, Aichi, Japan) A case of TAVI with a trouble of balloon stuck to Corevalve strut.

MO75	3	1085	Takagi Yusuke (Department of Cardiology, Iwaki Kyoritsu General Hospital, Iwaki, Japan) Clinical Implications of Balloon Valvuloplasty for High-Risk Patients with Aortic Valve Stenosis
MO76	4		Takekawa Hiroyuki (Cardiovascular Center, Sendai Kousei Hospital, Miyagi, Japan) A Cases of Improvement of Iliofemoral Artery Spasm after Transfemoral Transcatheter Aortic Valve Implantation.
MO77	5	1003	Doue Tomoki (Department of Cardiology, Shakaiiryohojin Seichokai Fuchu Hospital, Osaka, Japan) A Case of Near Leriche Syndrome with Severe Calcification Treated with Kissing Self-expanding Stent
MO78	6	1083	Ishiwaki Hikaru (Asahi General Hospital, Chiba, Japan) 3 cases of percutaneous transluminal renal angioplasty of acute renal infarction
MO79	7	1045	Toda Hironobu (Department of Cardiovascular Medicine, Okayama University, Okayama, Japan) Angioplasty for Progressive Renal Artery Stenosis with Large-vessel Vasculitis: a Case Report
MO80	8	1092	Ishikawa Tetsuya (Jikei University Kashiwa Hospital, Kashiwa, Chiba, Japan) Long-term Outcomes after Renal Artery Stenting for Atherosclerotic RAS: A Single-Center Study
