

# Presentation Award Digital Poster

| Registration No. | Presentation No. | Day                    | Abstract title / Case title  |
|------------------|------------------|------------------------|--|
| 1007             | MP-1             | Feb.21 (Fri) -23 (Sun) | What kind of EVT patient have the coronary artery disease?   |
| 1021             | MP-2             | Feb.21 (Fri) -23 (Sun) | The aortic remodeling and rationale of TEVAR procedure for acute Type B intramural hematoma of aorta&mdash;an introspection of ESC guideline   |
| 1031             | MP-3             | Feb.21 (Fri) -23 (Sun) | Does upper arm straight arteriovenous graft possess better primary and secondary patency than forearm loop arteriovenous graft?  |
| 1035             | MP-4             | Feb.21 (Fri) -23 (Sun) | What is the best collaboration between interventionalist and vascular surgeon? [Fukushima-Daiichi-Hospital-Style 4cases]   |
| 1071             | MP-5             | Feb.21 (Fri) -23 (Sun) | Comparison of Limb and Cardiovascular Outcome following Endovascular Therapy between Patients Receiving Hemodialysis and not Receiving Hemodialysis: Results from the Toma-Code Registry       |
| 1077             | MP-6             | Feb.21 (Fri) -23 (Sun) | IVR pro : the membership web-site for all IVR workers  |
| 1080             | MP-7             | Feb.21 (Fri) -23 (Sun) | Clinical Outcome after Endovascular Treatment for Femoro-Popliteal Lesion with Hemodialysis Patients.  |
| 1084             | MP-8             | Feb.21 (Fri) -23 (Sun) | Outcome of spot stenting strategy using drug-coated balloon for femoropopliteal lesions  |
| 1120             | MP-9             | Feb.21 (Fri) -23 (Sun) | Impact of Hyperuricemia on Patients with Chronic Heart Failure Who Underwent Endovascular Therapy; from I-PAD 3year Registry   |
| 1130             | MP-10            | Feb.21 (Fri) -23 (Sun) | A prospective randomized controlled trial evaluating the effect ofEVAR with or without IMA embolizationin patients at high risk of type II endoleak  |
| 1136             | MP-11            | Feb.21 (Fri) -23 (Sun) | Efficacy and cost benefit of Coil in Plug Method (CIP) for Internal Iliac Artery (IIA) embolization  |
| 1008             | MP-12            | Feb.21 (Fri) -23 (Sun) | A case of adventitial cystic disease that occured popliteal artery stenosis some times after removal surgery.  |
| 1012             | MP-13            | Feb.21 (Fri) -23 (Sun) | Endovascular Treatment of Arterio-ureteral Fistula with New-generation Balloon-expandable Stent graft by 7-french system   |
| 1015             | MP-14            | Feb.21 (Fri) -23 (Sun) | A case that distal puncture in narrow segment of ATA was effective for chronic total occlusion   |
| 1024             | MP-15            | Feb.21 (Fri) -23 (Sun) | Bail-out from wire perforation with magical-coil   |
| 1025             | MP-16            | Feb.21 (Fri) -23 (Sun) | A feasible strategy to prevent exsanguination from aorto-esophageal fistula caused by thoracic aortic stent graft for thoracoabdominal aortic aneurysm due to chronic type B aortic dissection |
| 1027             | MP-17            | Feb.21 (Fri) -23 (Sun) | The novel approach for calcification; "Calc.Break Technique -Fracking Method-"   |
| 1041             | MP-18            | Feb.21 (Fri) -23 (Sun) | A case of acute common iliac artery occlusion treated with thrombectomy with EVT and Fogarty catheter  |
| 1042             | MP-19            | Feb.21 (Fri) -23 (Sun) | <strong>Endovascular management of pelvic venous compression due to idiopathic retroperitoneal fibrosis  |
| 1043             | MP-20            | Feb.21 (Fri) -23 (Sun) | A case of successful stent implantation for heavy calcified abdominal aorta stenosis(occlusion?) with bi-directional approach.   |
| 1046             | MP-21            | Feb.21 (Fri) -23 (Sun) | Pathological findings of femoropopliteal artery after using drug coated balloons   |
| 1047             | MP-22            | Feb.21 (Fri) -23 (Sun) | Acute limb ischemia after SUPERA stent implantation  |
| 1054             | MP-23            | Feb.21 (Fri) -23 (Sun) | Successful endovascular treatment of renal artery aneurysm using stentgraft and NBCA: a case report  |
| 1057             | MP-24            | Feb.21 (Fri) -23 (Sun) | A case of successful recanalization of heavily calcified ATA occlusion in a hemodialysis patient in combination with BAD form technique and PIERCE technique.                                  |
| 1059             | MP-25            | Feb.21 (Fri) -23 (Sun) | A Complex Case of Occlusive Femoro-popliteal Lesion after Multiple Bypass Surgery  |
| 1060             | MP-26            | Feb.21 (Fri) -23 (Sun) | A Case of Deployment Failure of VIABAHN&trade; for Severe Calcified Femoro-popliteal Lesion  |
| 1064             | MP-27            | Feb.21 (Fri) -23 (Sun) | A case of surgeon modified fenestrated TEVAR for pararenal abdominal aortic aneurysm.  |
| 1072             | MP-28            | Feb.21 (Fri) -23 (Sun) | Treatment of a Renal Artery Pseudoaneurysm using the Viabahn Stent Graft   |
| 1081             | MP-29            | Feb.21 (Fri) -23 (Sun) | A case of subacute thromboembolism for bilateral lower limb arteries due to atrial fibrillation  |

| Registration No. | Presentation No. | Day                    | Abstract title / Case title  |
|------------------|------------------|------------------------|--|
| 1082             | MP-30            | Feb.21 (Fri) -23 (Sun) | A case of repeated endovascular treatment due to stent fracture after balloon-expandable stent placement for subclavian artery occlusion             |
| 1092             | MP-31            | Feb.21 (Fri) -23 (Sun) | A case of endovascular treatment for CLI complicated with connective tissue disease  |
| 1097             | MP-32            | Feb.21 (Fri) -23 (Sun) | Replacement of deployed plug to chronic thrombus in superficial femoral artery during the course of 6 months; a bailout case of trouble with EXOSEAL |
| 1099             | MP-33            | Feb.21 (Fri) -23 (Sun) | Successful endovascular treatment for very late-onset and acute progressive multiple transplant renal segmental artery stenosis                      |
| 1101             | MP-34            | Feb.21 (Fri) -23 (Sun) | Upper limb DVT due to thoracic outlet syndrome-A case report.  |
| 1107             | MP-35            | Feb.21 (Fri) -23 (Sun) | Therapeutic strategy for a case of severe calcified occlusion of bypassed SFA with contrast medium allergy   |
| 1114             | MP-36            | Feb.21 (Fri) -23 (Sun) | Endovascular Therapy for Superficial Femoral Artery Occlusion under Ultrasound Guidance with Radial Approach   |
| 1127             | MP-37            | Feb.21 (Fri) -23 (Sun) | A case of acute stent thrombosis with usage of ELUVIA® stent   |
| 1143             | MP-38            | Feb.21 (Fri) -23 (Sun) | Successful stenting to superior mesenteric artery (SMA) after necrotic intestine resection for abdominal angina                                      |
| 1144             | MP-39            | Feb.21 (Fri) -23 (Sun) | When the thread is broken during cover stent deployment: Cover the cover stent   |
| 1150             | MP-40            | Feb.21 (Fri) -23 (Sun) | Two cases of SFA CTO treated with carbon dioxide angiography using an OUTBACK catheter   |
| 1155             | MP-41            | Feb.21 (Fri) -23 (Sun) | External iliac artery type IV stent fracture related total occlusion retrograde recanalization without IVUS guide                                    |
| 1158             | MP-42            | Feb.21 (Fri) -23 (Sun) | A case of CLI which merged a balloon catheter tear.  |
| 1159             | MP-43            | Feb.21 (Fri) -23 (Sun) | IVUS guided wiring improves clinical outcomes of EVT for femoropopliteal CTO   |
