

L1-1 Heat #1

Interesting clinical trials in FP and Infrapopliteal lesions 1

Moderators Masayoshi Kimura, Shinya Sasaki

Panelists Makoto Sugihara, Keisuke Ueno

- MO-1 Clinical Outcomes of Endovascular Therapy for Isolated Popliteal Artery Disease with Each Device -SUPERA vs. Drug-coated Balloon Angioplasty vs. Standard Percutaneous Transluminal Angioplasty-
Masafumi Mizusawa
- MO-2 The Clinical Impact of high and low-dose Paclitaxel Drug-Coated balloon on Patients with Intermittent Claudication or chronic limb-threatening ischemia
Kunihiko Nishian
- MO-3 A retrospective evaluation of the long-term utility, costs, and trends of using intravascular ultrasound (IVUS) guidance during lower-extremity peripheral vascular interventions (LE-PVI)
Yoshimitsu Soga
- MO-4 Efficacy of drug-coated balloon for chronic total occlusion in femoropopliteal artery
Tomofumi Tsukizawa
- MO-5 Comparison of Clinical Outcome of Stent-grafts and Drug-Coated Balloon angioplasty for the Treatment of Superficial Femoral Artery Restenosis Lesion
Takahide Nakano
- MO-6 Impact of Association between Dissections after Drug-Coated balloon angioplasty and Vessel diameter on the Outcome in the Femoropopliteal Arteries
Masanaga Tsujimoto
- MO-7 Infrapopliteal anatomical predictors of wound recurrence in CLTI patients in the era of the global limb anatomic staging system (GLASS)
Takashi Yanagiuchi

L2-1 Heat #2

Interesting aortoiliac and FP cases

Moderators Hiroshi Ando, Masanori Inoue

Panelists Yuki Shima, Yuichi Moriyama

- MO-8 A case of Lericq's syndrome with cerebral infarction during EVT
Yoshiteru Okina
- MO-9 A Case of Gap Hemostasis with VIABAHN Stent Grafts
Hirokazu Miyashita

- MO-10 The Usefulness of Long BNS for Very Elderly Patients with Femoropopliteal Artery Thrombotic Occlusion
Hiroshi Araki
- MO-11 A case of VIABAHN implantation for arteriovenous fistula and pseudoaneurysm
Daisuke Yamazaki
- MO-12 Rupture of peroneal artery aneurysm as a late complication related to angioplasty
Kazuhiro Asano
- MO-13 My most tough CLTI case in these days
Takuma Tsuda
- MO-14 Two cases of stent thrombosis in Eluvia
Takafumi Fuwa
- MO-15 The no-flow phenomenon following drug-coated balloon angioplasty in a patient with chronic limb-threatening ischemia and history of below-knee amputation
Mitsuo Sobajima

June 10 (Fri) 10:30-12:00

Hall L-1 (Hall C)

L1-2 Heat #3

Interesting clinical trials in FP and Infrapopliteal lesions 2

Moderators Michinao Tan, Yo Iwata

Panelists Nobuhiro Suematsu, Taketsugu Tsuchiya

- MO-16 A novel technique of percutaneous intraluminal cracking using a guidewire introducer for severe calcified peripheral artery disease
Chai Hock Chua
- MO-17 Animated Volume Rendering versus Computed Tomography for Comprehension of Vascular Anatomy by Junior Doctors
Mei Ping Melody Koo
- MO-18 Effective endovascular treatment for common femoral artery with calcified plaques using direct bare metal needle puncture
Teruaki Kanagami
- MO-19 Initial experience of a new CTO closing catheter as a lesion modification device
Takaaki Ozawa
- MO-20 Complications and reflections on using Proglide
Shohei Morita
- MO-21 Two year outcomes of endovascular therapy for femoropopliteal arterial lesions for patients with high bleeding risk
Yuki Shima
- MO-22 Objective estimation of calcified nodule predicts successful wire crossing in peripheral artery disease
Dai Ozaki

L2-2 Heat #4**Interesting clinical trials and cases (AI and FP)**

Moderators Takahiro Tokuda, Makoto Utsunomiya

Panelists Tamon Kato, Takuya Myojo

- MO-23 Successful endovascular treatment of SFA CTO using trans ankle intervention
Shoichiro Furukawa
- MO-24 Initial experiences of Removing Calcified Plaque by Intentional Crosser Bias Control with Angled Support Catheter (REIWA) technique in calcified lesion
Yuichiro Hosoi
- MO-25 Erroneous incomplete stent apposition observed using optical frequency domain imaging following implantation of peripheral self-expanding nitinol stents
Takashi Miwa
- MO-26 Transient portal hypertension might happen after drug-eluting stent implantation in superior mesenteric artery
Yuya Asano
- MO-27 A case of fenestration of superficial femoral artery
Maki Ohira
- MO-28 Successful endovascular therapy with "Direct tip Injection in Occlusive Lesions" technique for persistent sciatic artery occlusion
Masanaga Tsujimoto
- MO-29 Efficiency of a steerable sheath for cannulation of visceral arteries during fenestrated and branched endovascular aortic repair for thoracoabdominal aneurysms
Takeshi Baba
- MO-30 Hybrid repair of deep femoral artery aneurysm in a patient with frailty
Kaichiro Manabe

L1-3 Heat #5**Interesting clinical trials in FP lesions**

Moderators Kazushi Urasawa, Masashi Fukunaga

Panelists Yoshiya Kato, Hiroki Kondo

- MO-31 1-year patency of DCB, DES, stent graft and combination of these devices in EVT for FP lesion
Shun Kudo
- MO-32 Patency of Deep Femoral Artery Associated with Treatment of Complex Proximal Superficial Femoral Artery Lesions
Yuki Kozai

- MO-33 Comparison of the impact of short versus prolonged dual antiplatelet therapy on major adverse limb events and major bleeding after endovascular therapy in patients with high bleeding risk
Shutaro Goda
- MO-34 The short-term clinical outcomes after drug-coated balloon angioplasty for femoropopliteal in-stent occlusion
Kohei Yamaguchi
- MO-35 The predictors of early occlusion after DCB treatment in femoropopliteal lesion
Haruya Yamane
- MO-36 The difference of one-year late lumen loss between high dose and low dose paclitaxel coated balloons for femoropopliteal disease
Kenji Kodama
- MO-37 The Successful Endovascular Recanalization Procedure with Wingman catheter system for Femoropopliteal Artery Total Occlusion
Tomofumi Tsukizawa
- MO-38 Predictive model of 30-min wire passage during intentional central wiring for occlusive femoropopliteal lesions
Yohsuke Honda

June 10 (Fri) 13:40-15:10

Hall L-2 (Hall C)

L2-3 Heat #6

Interesting clinical trials and cases (Aortoiliac, FP, infrapopliteal lesions, and others)

Moderators Tomoyasu Sato, Shinsuke Kikuchi

Panelist Akinori Sumiyoshi

- MO-39 Clinical outcomes of the Gore Excluder iliac branch endoprosthesis (IBE) for Japanese patients with aortoiliac aneurysms
Yukihisa Ogawa
- MO-40 Calcium channel blocker use was related to positive outcomes after endovascular treatment
Daisuke Ueshima
- MO-41 Impact of Residual SYNTAX Score of Coronary Artery Disease in Patients with Peripheral Arterial Disease after Endovascular Treatment in I-PAD-5-years-Registry
Yusuke Kanzaki
- MO-42 Drug coated balloon angioplasty versus stent implantation for femoropopliteal artery disease in patients with chronic limb ischemia
Kota Mizutani
- MO-43 Successful endovascular intervention with PIERCE and inner PIERCE technique for severely calcified lesions of tibial artery
Tatsuro Takei
- MO-44 The novel guidewire externalization technique using a needle without inserting microcatheter
Masanaga Tsujimoto

- MO-45 Successful endovascular treatment with a SFA-POP double CTO via contralateral crossover approach by OTW IVUS-guided wiring
Hiroshi Mikamo
- MO-46 Percutaneous deep venous arterialization with balloon angioplasty saved a life-threatening critical limb in a hemodialysis patient after repeated pedal angioplasty failed
Tomonari Takagi

June 10 (Fri) 15:40-17:10

Hall L-1 (Hall C)

L1-4 Heat #7

Interesting clinical trials and cases in aortoiliac and FP lesions

Moderators Taku Kato, Hideaki Aihara

Panelists Yoshiro Tsukiyama, Kuniyoshi Fukai

- MO-47 Endovascular repair for abdominal aortic aneurysm with iliac chronic total occlusion using bifurcated endoprosthesis device
Keisuke Kamada
- MO-48 A case of two-stage EVT for thrombotic lesion in the aortoiliac region
Shunsuke Maruta
- MO-49 Comparative two-year outcomes of Misago stent versus other bare nitinol stents for de novo aortoiliac disease
Takuya Haraguchi
- MO-50 The needle re-entry technique for infrainguinal arterial calcified occlusive lesions
Takuya Haraguchi
- MO-51 Cook Zenith endograft and early sac shrinkage, which is associated with fewer serious complications after endovascular aneurysm repair
Shuta Ikeda
- MO-52 Early and late outcomes of endovascular treatment for internal iliac artery aneurysm
Takahiro Ohmori
- MO-53 Long term clinical outcome of endovascular therapy for aortoiliac artery in-stent restenosis lesions
Akiko Tanaka
- MO-54 Clinical Impact of Additional Cilostazol Treatment on Restenosis Risk following Heparin-Bonded Stent-Graft Implantation
Kazuki Tobita

L2-4 Heat #8**Interesting clinical trials and cases (Aortoiliac, FP, infrapopliteal lesions, and others)**

Moderators Kojiro Miki, Yasutaka Yamauchi

Panelists Tatsuro Takeji, Yutaka Dannoura

MO-55 Prediction of Technical Failure of Inframalleolar Angioplasty in Patients with Chronic Limb-threatening Ischemia: Insight into What Makes No-option Anatomy for Endovascular Therapy
Yusuke Sato

MO-56 Clinical Impact of Combined Endovascular Balloon Inflation and Percutaneous Thrombin Injection for Any Iatrogenic Pseudoaneurysm
Eiji Koyama

MO-57 A retrospective single-center study of access-related complications during percutaneous endovascular aneurysm repairs
Ryosuke Taniguchi

MO-58 Outcomes of Hybrid operation of Common Femoral Endarterectomy and Endovascular Therapy for Peripheral Arterial Disease
Keitaro Nakanishi

MO-59 Incidence, predictors, and prognostic implications for major bleeding after endovascular therapy
Keiichi Hishikari

MO-60 Impact of "Black Rock" on clinical outcomes after endovascular therapy for de novo calcified femoropopliteal lesions
Shinsuke Mori

MO-61 Quantitative techniques of ultrasonography in the assessment of femoropopliteal atherosclerotic lesions using peak systolic velocity ratio (PSVR) : TURN-UP study
Aiko Hayashi

L1-5 Heat #9**Interesting clinical trials and cases (vein, AV access, and others)**

Moderators Atsushi Funatsu, Kenji Suzuki

Panelists Satoshi Mogi, Yuichi Moriyama

MO-62 Endovascular bypass for salvage of failing vascular access in hemodialysis patients
Chai Hock Chua

MO-63 Clinical features and outcomes of endovascular therapy for postpancreatectomy hemorrhage: A multicenter, retrospective, observational study
Satoru Nagatomi

MO-64 Ultrasound-guided versus Conventional MANTA Vascular Closure Device Deployment after Transcatheter Aortic Valve Replacement
Hirokazu Miyashita

- MO-65 Nitinol Stent Failure in Iliac Compression Syndrome
Kei Sato
- MO-66 A comparison between surgical and percutaneous treatment for vascular access occlusion
Yoshihiko Chono
- MO-67 Successful case of endovascular treatment of May-Thurner syndrome complicated by arteriovenous fistula
Takafumi Fujita
- MO-68 Bi-directional EVT for iliac compression syndrome
Jun Yoshimura

June 10 (Fri) 17:10-18:40

Hall L-2 (Hall C)

L2-5 Heat #10

Interesting clinical trials and cases (TEVAR, EVAR and others)

Moderators Kota Shukuzawa, Toshio Takayama

Panelists Tsuyoshi Shibata, Tsuyoshi Ichinose

- MO-69 Thoracic Endovascular Aortic Repair for Type B Aortic Dissection with concurrent COVID-19 infection
Mei Ping Melody Koo
- MO-70 The masseter muscle thickness and oral frailty is a strong predictive marker for postoperative pneumonia and midterm mortality after endovascular repair for abdominal aortic aneurysm
Eisaku Ito
- MO-71 Total endovascular repair for thoracoabdominal aortic aneurysm associated with Takayasu's Aortitis
Junki Yokota
- MO-72 Severe tortuosity of the distal descending thoracic aorta affects the accuracy of distal deployment during a thoracic endovascular aortic repair
Tomohiro Sato
- MO-73 Mid-term result of hybrid TEVAR for Kommerell's diverticulum complicated with the right-sided aortic arch
Satoshi Sakakibara
- MO-74 The efficacy of preemptive lumbar artery embolization during endovascular aortic aneurysm repair
Akio Koyama
- MO-75 Thoracic stent-grafting for type B aortic dissection: Analysis of inhibitory factors of aortic remodeling
Ryo Taguchi
- MO-76 Endovascular repair for perigraft seroma induced by previous visceral bypass surgery and causing duodenal obstruction
Tsutomu Doita
