

JETOPEN Poster

Registration No.	Presentation No.	Day	Venue	Abstract title / Case title
60006	MP-1	June14(Fri)-16(Sun)	4F 402	A case of bilateral highly calcified bilateral renal artery lesions with refractory heart failure treated by bi-stage PTRAs and EVT
60070	MP-2	June14(Fri)-16(Sun)	4F 402	Effectiveness of trans-radial approach for emergency hemostasis at femoral arteries compared with trans-femoral approach.
60073	MP-3	June14(Fri)-16(Sun)	4F 402	Clinical performance of spot DES for FP lesions in our institution
60013	MP-4	June14(Fri)-16(Sun)	4F 402	A case of chronic limb-threatening ischemia who underwent surgical thrombectomy for recurrent stent thrombosis
60045	MP-5	June14(Fri)-16(Sun)	4F 402	Development of a clinical and ultrasonic parameter based nomogram predictive model for the prediction of restenosis after superficial femoral artery stenting
60062	MP-6	June14(Fri)-16(Sun)	4F 402	Pre-procedural color duplex ultrasound evaluation predicts restenosis after long-segment superficial femoral artery stenting
60096	MP-7	June14(Fri)-16(Sun)	4F 402	A case of long CTO in which the stent fractured at two sites due to overstretching deployment
60035	MP-8	June14(Fri)-16(Sun)	4F 402	Retrograde In-situ Fenestration of Left Subclavian Artery using BeBack Crossing Catheter and Physician-Modified Steerable Sheath for Treatment of Complicated Type B Aortic Dissection
60041	MP-9	June14(Fri)-16(Sun)	4F 402	Stent placement for iliac vein occlusion/DVT displaced by tumor
60101	MP-10	June14(Fri)-16(Sun)	4F 402	One stage thrombi aspiration with Indigo catheter for simultaneous DVT and pulmonary embolism for the man after BNT vaccine injection
