Session No JET STAGE #1			
Friday, February 6, 2026, 09:10-10:10 JET STAGE			
THEME		Beyond the Limits: Advanced BTK Intervention Techniques	
Language		English	
Topics	Despite remarkable progress in EVT, many challenges remain unresolved in below-the-knee (BTK) interventions.		
	This session brings together innovative techniques, creative strategies, and cutting-edge approaches from across the world to tackle these difficult cases.		
	While JET is renowned for its evidence-based and data-driven programs, this international session takes a slightly different flavor — a platform for sharing extreme interventions that push the limits of conventional practice.		
	Through this exchange, we aim to foster global collaboration and inspire participants to explore new frontiers in BTK treatment.

Session No JET STAGE #2			
Friday, February 6, 2026, 10:20-11:20 JET STAGE			
THEME		BTK-CTOs: Show Us How You Do It!	
Language		English	
Topics	Each speaker will present their practical algorithms for below-the-knee (BK) treatment in daily clinical practice, focusing on five key aspects: (1) approach strategy, (2) guidewire selection and crossing techniques, (3) indications for bidirectional approaches, (4) utilization of imaging devices, (5) endpoint decision-making. Alongside the supporting evidence, they will exchange insights into personal preferences and discuss country- or region-specific challenges. The goal is to learn from the distinctive characteristics of each region and to share perspectives that contribute to the globalization and advancement of EVT techniques.
