

JET 2026 Program Detail

Session No L1-1

Friday, February 6, 2026, 9:10-10:10 Hall L-1

THEME				JETOPEN-the world #1
Language				English
MODERATOR				Taku Kato
MODERATOR				Chung-Ho Hsu
PANEL				Enis Kocak
Time	Speech (min)	QA (min)	Title and Speaker	
9:10-	5	3	Three-year clinical outcomes of LEAD patients with low vision in Setouchi multicenter retrospective study (SETers study) Eiji Karashima	
9:18-	5	3	A single-center investigation of clinical outcomes in patients undergoing trans-ankle intervention (TAI) Hiromi Miwa	
9:26-	5	3	A Novel Distal Embolization Prevention Method Using JETSTREAM® for Severely Calcified Femoropopliteal Lesions: The Reverse-CAT Yuta Kato	
9:34-	5	3	Impact of Blades Up Technique and Minimum Lumen Area on Diameter of Distal Embolized Materials after Endovascular Therapy Using JETSTREAM Takeaki Kudo	
9:42-	5	3	Predictors of successful extra-vascular ultrasound-guided wiring for femoropopliteal chronic total occlusions within 30 minutes Shinsuke Mori	
9:50-	5	3	Efficacy of Drug-Coated Balloons According to Paclitaxel Dose in Calcified Femoropopliteal Lesions. Hikaru Tanemura	
9:58-	5	3	Impact of Intra-Calcium Wiring on Acute Lumen Gain and Long-Term Patency Following Jetstream Atherectomy and Drug-Coated Balloon in Severely Calcified Femoropopliteal Lesions Shinya Ichihara	

JET 2026 Program Detail

Session No L1-2

Friday, February 6, 2026, 10:20-11:20 Hall L-1

THEME				JETOPEN-the world #3
Language				English
MODERATOR				Yuki Shima
MODERATOR				Hsin-Fu Lee
PANEL				Sulaiman AlShamsi
Time	Speech (min)	QA (min)	Title and Speaker	
10:20-	5	3	Association between poor oral health and clinical outcomes after endovascular abdominal aortic aneurysm repair Yohei Kawai	
10:28-	5	3	Long-Term Outcomes and Late Aortic Events After Thoracic Endovascular Aortic Repair Hajime Maeda	
10:36-	5	3	TEVAR in Ruptured Thoracic Aortic Aneurysm With Hemothorax: Strategic Sequence of Aortic Repair and Delayed Hemothorax Evacuation Kevin Francio	
10:44-	5	3	Acute and Mid-term Result of Puncture to Interwoven Bare-nitinol Stent following Endovascular Therapy for Severe Calcified Common Femoral Artery Lesions Kazuki Kumagai	
10:52-	5	3	Customized aortic arch fenestrated stent graft insertion for Total arch replacement I-Ming Chen	
11:00-	5	3	Early outcomes of CERAB in complex AIOD – Retrospective analysis of a single institution experience Yu-Hern Tan	

JET 2026 Program Detail

Session No L1-3

Friday, February 6, 2026, 13:05-14:05 Hall L-1

THEME			
JETOPEN-the world #5			
Language English			
MODERATOR Yoshito Yamamoto			
MODERATOR Chung-Dann Kan			
PANEL Phillip Puckridge			
Time	Speech (min)	QA (min)	Title and Speaker
13:05-	5	3	Clinical Impact of Factors Associated with Delayed Wound Healing in Patients with Advanced Chronic Limb-Threatening Ischemia Undergoing Endovascular Therapy Tatsuro Takei
13:13-	5	3	Comparison between Traditional Endovascular Therapy and Mechanical Thrombectomy with Indigo System for Acute Limb Ischemia Eiji Koyama
13:21-	5	3	A prospective Registry investigating Predictors of Bail-out Stenting in FP-CTO treated with IVUS-guided EVT Hiroaki Akai
13:29-	5	3	Outcomes and predictors of restenosis after Jetstream atherectomy in small femoropopliteal arteries: A subanalysis of the JOKER Registry Masanaga Tsujimoto
13:37-	5	3	Intra- versus Extra-Calcification Wiring in JETSTREAM Atherectomy for Heavily Calcified Femoropopliteal Lesions Keiichiro Shimazu
13:45-	5	3	Comparing Zilver PTX Outcomes for Femoropopliteal Disease: Insights from Australian and Japanese Real-World Studies Alan D Rossman
13:53-	5	3	Clinical Outcomes and Technical Tips of the WIENPHIL Technique for Safe and Effective JETSTREAM Atherectomy in Calcified Occlusive Lesions Hideaki Aihara

JET 2026 Program Detail

Session No L1-4

Friday, February 6, 2026, 14:15-15:15 Hall L-1

THEME	JETOPEN-the world #6		
Language	English		
MODERATOR	Takenobu Shimada		
MODERATOR	Chia-Hsun Lin		
PANEL	Bahram Mohebbi		
PANEL	Chia-Hsiu Chang		
Time	Speech (min)	QA (min)	Title and Speaker
14:15-	5	3	Clinical outcomes and predictors of repair success following vessel preparation failure in femoropopliteal lesions Takehiro Yamada
14:23-	5	3	Association between Lipid-rich Plaques and Calcification in Femoropopliteal Artery Yusuke Sato
14:31-	5	3	Clinical outcomes of cilostazol treatment for femoropopliteal lesions in second generation DCB era. Masahiro Miyata
14:39-	5	3	Mid-term clinical outcomes from single center experience of interwoven stent implantation in atherosclerotic common femoral artery disease. Hironao Sudo
14:47-	5	3	Clinical Outcomes of Drug-Coated Balloon Angioplasty With Versus Without Jetstream™ Atherectomy for Severe Calcified Femoropopliteal Lesions. Motoaki Kai
14:55-	5	3	VESSEL PREPARATION MATTERS: SHORT-TERM REGISTRY DATA FOR DIRECTIONAL ATHERECTOMY IN BELOW-THE-KNEE PERIPHERAL ARTERY DISEASE Michael Na
15:03-	5	3	The BRight DCB First-in-Human study: PK analysis and 12-month results of a novel Limus derivative DCB. Bibombe Mwipatayi

JET 2026 Program Detail

Session No L1-5

Friday, February 6, 2026, 16:10-17:10 Hall L-1

THEME	JETOPEN-the world #7		
Language	English		
MODERATOR	Hiroshi Ando		
MODERATOR	Sulaiman AlShamsi		
PANEL	Chon-Seng Hong		
PANEL	Darius Aw Kang Lie		
Time	Speech (min)	QA (min)	Title and Speaker
16:10-	5	3	The Difference in size of ablated material between inside the suction bag and at the filter of the JETSTREAM Yui Takaiwa
16:18-	5	3	One-year Clinical outcomes of hybrid treatment combining Fogarty thrombectomy and endovascular techniques for acute lower limb ischemia Keisuke Shoji
16:26-	5	3	Clinical Outcomes of Balloon-Only Venous Arterialization for Chronic Limb-Threatening Ischemia After Failed or Unfeasible Revascularization Tomonari Takagi
16:34-	5	3	Clinical Outcomes of Thromboendarterectomy using a Bovine Pericardial Patch (XenoSure®) for Common Femoral Artery including Hybrid Treatments. Takahiro Ohmine
16:42-	5	3	Endovascular therapy with Jetstream atherectomy debulking device for calcified femoropopliteal artery (JOKER registry): Early results from a retrospective multicenter registry Hirokazu Miyashita
16:50-	5	3	Verification of the safety of large-diameter sheath insertion in anterolateral popliteal artery puncture Daisuke Yamazaki
16:58-	5	3	Thirty-Day Postoperative Major Adverse Limb Events in Patients with Acute Limb Ischemia at Bhumibol Adulyadej Hospital Sarrath Sutthipong

JET 2026 Program Detail

Session No L1-6

Friday, February 6, 2026, 17:15-18:15 Hall L-1

THEME	JETOPEN-the world #8		
Language	English		
MODERATOR	Kentaro Jujo		
MODERATOR	Po-Chao Hsu		
PANEL	Hsu-Ting Yen		
PANEL	Mohamed Baguneid		
Time	Speech (min)	QA (min)	Title and Speaker
17:15-	5	3	A case of a calcified CIA lesion with early thrombotic occlusion caused by deformation of a covered stent Soki Inoue
17:23-	5	3	Bidirectional Parallel Wire Technique for LCIA Chronic Total Occlusion (CTO) with CFA Extension using the WINNER Technique. Jonald O. Lucero
17:31-	5	3	A Case of Severe Aorto-Iliac Artery Stenosis in Which All Balloons Ruptured Takakuni Kurokawa
17:39-	5	3	Dealing with In-stent and Calcified Chronic Total Occlusion (CTO) in Chronic Limb-threatening Ischemia Teuku Rahadiyan
17:47-	5	3	SUPERA stent migration following contralateral femoral access: exclusion with VBX covered stent and mechanical considerations Katsuyuki Hanabusa
17:55-	5	3	Successful Limb Salvage by Combined Indigo Aspiration Thrombectomy and Catheter-Directed Thrombolysis with tPA for Acute Lower Limb Ischemia Associated with Popliteal Artery Aneurysm Mitsuyo Ito

JET 2026 Program Detail

Session No L1-7			
Saturday, February 7, 2026, 9:10-10:10 Hall L-1			
THEME		JETOPEN-the world #9	
Language		English	
MODERATOR		Tomonori Takagi	
MODERATOR		Su Hong Kim	
PANEL		Jaroen Cheewinmethasiri	
PANEL		Gerard Goh	
Time	Speech (min)	QA (min)	Title and Speaker
9:10-	5	3	Supera Implantation for Common Femoral Artery Disease in Patients with High Frailty and Comorbidities <u>Naho Ito</u>
9:18-	5	3	Initial Experience of Percutaneous Hemostasis for Large-Bore Device Removal <u>Keiko Watanabe</u>
9:26-	5	3	Clinical Outcomes of the LifeStream Covered Stent for Iliac Artery Disease: A Single-Center Retrospective Study <u>Masanao Inoue</u>
9:34-	5	3	Sharing the Excellence of Hybrid Revascularization for LEAD/CLTI <u>Shuji Kurata</u>
9:42-	5	3	First-in-Human Evaluation of a Novel Hybrid Drug-Eluting Stent for Below-the-Knee Lesions: Study Design of the DIAMOND-BTK Randomized Trial <u>Yukihisa Ogawa</u>
9:50-	5	3	Pathology of above the Knee Arteries after Balloon Angioplasty <u>Manabu Shiozaki</u>

JET 2026 Program Detail

Session No L1-8

Saturday, February 7, 2026, 10:20-11:20 Hall L-1

THEME			
MODERATOR			
MODERATOR			
PANEL			Sonya Noor
Time	Speech (min)	QA (min)	Title and Speaker
10:20-	5	3	Paclitaxel distribution assessment after drug-coated balloon treatment in the superficial femoral artery: SNOW grade Takeo Horikoshi
10:28-	5	3	Prognostic Impact of Inframalleolar Occlusive Disease in Patients with Chronic Limb-Threatening Ischemia Shuko Iwata
10:36-	5	3	Prognostic Significance of the Geriatric Nutritional Risk Index in Patients with Both Lower Limb Artery Disease and Heart Failure: Outcomes from the Multicenter Retrospective SETers Study Narumi Irie
10:44-	5	3	Tibial artery patency after endovascular therapy via a transtibial artery approach in patients with lower extremity artery disease Haruya Yamane
10:52-	5	3	Safety of Popliteal Sciatic Nerve Block in Endovascular Therapy Masayuki Takahara
11:00-	5	3	Integrating Social Determinants of Health into Risk Stratification of Major Adverse Limb Events after Endovascular Therapy for Chronic Limb-Threatening Ischemia Hiroaki Nohara
11:08-	5	3	Efficacy of the Wall Pierce Technique for Difficult Sheath Insertion into the Common Femoral Artery Tomohisa Koyama

JET 2026 Program Detail

Session No L1-9

Saturday, February 7, 2026, 12:45-13:45 Hall L-1

THEME			
Language			JETOPEN-the world #13
MODERATOR			Kei Ichihashi
MODERATOR			Donghoon Choi
PANEL			Enis Kocak
PANEL			Shen Sun
Time	Speech (min)	QA (min)	Title and Speaker
12:45-	5	3	Seasonal Trends of wound healing in patients with chronic limb-threatening ischemia -Insights from SAPLING database- Yosuke Hata
12:53-	5	3	Impact of Concomitant PCI on Long-Term Outcomes in Patients Undergoing Endovascular Therapy: Insights from SETers study Shingo Kurimoto
13:01-	5	3	Impact of Fibrosis-5 Index on lower extremity artery disease patients undergoing endovascular therapy Gakuto Bando
13:09-	5	3	Tip Detection – Antegrade Dissection and Re-entry (TD-ADR) Technique for Diffuse, Heavily Calcified Femoropopliteal CTOs Yasuhiro Ueda
13:17-	5	3	Combined Coronary and Lower Extremity CT Angiography with FFR Analysis for CAD Screening in Patients with LEAD: A Preliminary Study Ayaka Yu
13:25-	5	3	Predictors of Wound Healing of Chronic Limb-threatening Ischemia with Inflammatory Nonatherosclerotic Disease Naoya Otsuki
13:33-	5	3	Impact of deep femoral artery dominance on clinical outcomes following drug-coated balloon angioplasty for superficial femoral artery chronic total occlusion Kohei Yamaguchi

JET 2026 Program Detail

Session No L1-10

Saturday, February 7, 2026, 13:55-14:55 Hall L-1

THEME	JETOPEN-the world #15		
Language	English		
MODERATOR	Nobuhito Kaneko		
MODERATOR	Po-Jen Ko		
PANEL	Chia-Hsiu Chang		
PANEL	Kalpana Vijaykumar		
Time	Speech (min)	QA (min)	Title and Speaker
13:55-	5	3	Novel Noninvasive Evaluation of Microcirculation Using GOKO Bscan-ZD in a Patient with CLTI: A Case Report Takafumi Fujita
14:03-	5	3	The completely different clinical courses of the leg treated with the Bone Marrow Mononuclear Cell (BM-MNC) transplantation and the other foot in a Bilateral CLTI case Jun Yoshimura
14:11-	5	3	Association Between Lipoprotein(a) and Rutherford Classification in Patients With Lower Extremity Artery Disease Toshiki Takei
14:19-	5	3	A Case of Sarcoma Detected in Thrombus Aspirated During Treatment for Acute Limb Ischemia Chihiro Fukuyama
14:27-	5	3	From Coiling to Stenting: A Complex Vertebral-Jugular Arteriovenous (AV) Fistule and Extracranial Vertebral Artery Aneurysm (EVAA) Case with Rare Traumatic injuries Complication Catarina Lilian Christine
14:35-	5	3	Can large language models holistically manage acute cerebrovascular accident ? A pilot study Asanka R Wijetunga
14:43-	5	3	Short-Term Clinical Outcomes of Auryon Laser Atherectomy in Calcified Common Femoral Artery Disease: A Single-Center Study in Thailand Narathorn Rodjaruen

JET 2026 Program Detail

Session No L1-11

Saturday, February 7, 2026, 15:50-16:50 Hall L-1

THEME		JETOPEN-the world #16	
Language		English	
MODERATOR		Ryoichi Kyuragi	
MODERATOR		Veera Suwanruangsri	
PANEL		Vikram Puttaswamy	
PANEL		Hisham Rashid	
Time	Speech (min)	QA (min)	Title and Speaker
15:50-	5	3	Quantitative Investigation of Microcirculatory Status in Diabetic Foot Toes Using Non-Invasive Photoacoustic Scanning Imaging <u>Jianming Guo</u>
15:58-	5	3	The Impact of pedal artery characteristics in CLTI patients on bypass surgery <u>Takuo Nomura</u>
16:06-	5	3	CT-Based Evaluation of Plaque Hardness and Guidewire Crossing in Femoropopliteal EVT <u>Dai Ozaki</u>
16:14-	5	3	Risk of Distal Embolization Following Atherectomy by Blades-Up Mode of JETSTREAM <u>Natsumi Yanaka</u>
16:22-	5	3	Clinical impact of the age, creatinine, and ejection fraction (ACEF) score on clinical outcome in patients with LEAD <u>Kazunori Mushiake</u>
16:30-	5	3	Impact of Ultrasound-Guided Popliteal Sciatic Nerve Block on Endovascular Therapy for Below-the-Knee Lesions in Chronic Limb-Threatening Ischemia <u>Riho Suzuki</u>
15:38-	5	3	Wound Healing after Endovascular Treatment in Patients with Bilateral versus Unilateral Chronic Limb-Threatening Ischemia <u>Subaru Fujii</u>

JET 2026 Program Detail

Session No L1-12				
Saturday, February 7, 2026, 16:55-17:58 Hall L-1				
THEME	Medical staff OPEN #1			
Sub-theme	CE セッション			
Language	Japanese			
MODERATOR	土井尻 達紀			
MODERATOR	川崎 誠			
PANEL	直井 孝平			
PANEL	石橋 智通			
Time	Speech (min)	QA (min)	Title and Speaker	
16:55-	5	2	CLTI 治療における間欠的空気圧迫装置の可能性 中田 文	
17:02	5	2	当院における重度石灰化を伴う大腿膝窩動脈病変に対する Jetstream の臨床成績 黒岡 亜貴	
17:09-	5	2	重度石灰化大腿膝窩動脈病変に対する Jetstream Atherectomy: IVUS 評価による DCB 後最小内腔面積と一次開 存率の関連 澤田 望	
17:16-	5	2	JETSTREAM アテレクトミーにおける ARCADIA 施行時のフィル ターデリバリーの工夫と実践 大岡 玄暉	
17:23-	5	2	JETSTREAM 使用時のレーザー血流計を用いたリアルタイムモ ニタリングと slow flow 発生の関連 船田 寿成	
17:30-	5	2	Crosser iQ システムの機械的振動数増加による切削性能向 上と臨床応用の可能性 杉本 涼	
17:37-	5	2	透析症例における薬剤コーティングバルーンの使用経験 喜田 佳介	
17:44-	5	2	薬物コーティングバルーン(DCB)治療における前拡張省略 (Direct-DCB)の妥当性 -適応病変の特徴とプロペンシティス コアマッチング法による従来法との比較検討 宮本 靖大	

JET 2026 Program Detail

Session No L1-13			
Sunday, February 8, 2026, 09:10-10:10 Hall L-1			
THEME		JETOPEN domestic #7	
Language		Japanese	
MODERATOR		川崎 大三	
MODERATOR		辛島 詠士	
PANEL		尤 礼佳	
PANEL		永富 晓	
Time	Speech (min)	QA (min)	Title and Speaker
09:10-	5	3	Automated Analysis in IVUS Evaluation Rivals the Clinical Engineer's Eye 矢津 優子 (英語)
09:18-	5	3	術前 CT 検査における HU 値を用いた Arcadia テクニック成功 予測の検討 坂本 容規
09:26-	5	3	重度石灰化を伴う大腿膝窩動脈 (FP) 病変に対する VIABAHN(SG)および Eluvia(DES)留置後 3 年間の臨床成績の 比較検討 澤田 駿 (英語)
09:34-	5	3	超音波検査は BK-EVT のお役に立てるのか? 林 愛子 (英語)
09:42	5	3	大腿膝窩動脈病変に対する高用量 vs 低用量薬剤コーティ ングバルーンの 3 年成績 鬼塚 健太郎 (英語)
10:50-	5	3	血管原性および非血管原性下肢大切断例の臨床的特徴と 課題 藤原 敬士
10:58-	5	3	CLTI 患者に対する EVT において Inframalleolar 領域の血行 再建による創部治癒効果の検討 舟橋 紗耶華

JET 2026 Program Detail

Session No L1-14			
Sunday, February 8, 2026, 10:20-11:20 Hall L-1			
THEME		JETOPEN domestic #9	
Language		Japanese	
MODERATOR		相原 英明	
MODERATOR		高木 友誠	
PANEL		佐藤 裕介	
PANEL		三輪 宏美	
Time	Speech (min)	QA (min)	Title and Speaker
10:20-	5	3	大動脈腸骨動脈領域におけるカバードステントの長期成績および再狭窄因子についての検討 山野辺 博基
10:28-	5	3	左 F-P bypass 後の閉塞に対して2期的に血管内治療を行い、浅大腿動脈の CTO 穿刺が有効であった 1 例 谷仲 厚治
10:36-	5	3	ベーチェット病による両側総腸骨動脈狭窄に対して shotgun 法にてステントグラフトを留置した 1 例 谷 陽良
10:44-	5	3	Buerger 病も示唆された重度の虚血肢に対し経皮的動脈形成術にて救肢に至った症例 谷内田 友希 (英語)
10:52	5	3	遺残坐骨動脈に対し血管内治療を行った一例 牛丸 俊平 (英語)
11:00-	5	3	膝窩動脈瘤を含む LEAD に対して stent 留置することで救肢した一例 中川 智弘
11:08-	5	3	総腸骨動脈の慢性完全閉塞を血管内視鏡を用いて詳細に観察した一例 莫根 康平

JET 2026 Program Detail

Session No L1-15				
Sunday, February 8, 2026, 11:30-12:33 Hall L-1				
THEME	Medical staff OPEN #4			
Sub-theme	MT/Ns セッション			
Language	Japanese			
MODERATOR	滝村 英幸			
MODERATOR	新谷 勇馬			
PANEL	石田 啓介			
PANEL	濱口 純江			
Time	Speech (min)	QA (min)	Title and Speaker	
11:30-	5	2	足背動脈の遠位部穿刺時に血管内超音波が有用であった1例 草開 義希	
11:37-	5	2	膝窩動脈捕捉症候群はエコーで診断できる 佐々木 有沙	
11:44-	5	2	大腿動脈アプローチ EVT 後の穿刺部血管エコーによる止血評価の有用性の検討 坂東 莉小	
11:51-	5	2	当院におけるハイブリッド EVT の現状と課題 米川 純	
11:58	5	2	カテ一テル室看護と病棟看護をつなげる取り組みの報告 安西 美恵	
12:05-	5	2	カテ一テル室と病棟を繋げる取り組み、病棟看護師視点での報告 川村 双葉	
12:12-	5	2	EVT における足背動脈アプローチと大腿動脈アプローチの業務量の差異 松戸 美幸	
12:19-	5	2	地域とつながる CLTI 手帳の活用 ~CLTI 手帳を利用しての ACP 導入への試み~ 有阪 光恵	
12:26-	5	2	治癒困難と考えられた虚血性潰瘍に対する保存的創傷管理 江田 茜
